

Reference Videos -AGV

Project Details:

Customer: Automotive Industry

Part Handled: Motorcycle Engines mounted on Trolley

Application: Assembly Area Logistics

Challenges: Dependability on manpower leading to production bottleneck

Solution: AGV implementation helped automating complete material flow.

Benefit:

1. Possibility of production bottleneck eliminated
2. Labour dependency is eliminated

Tow Type AGV

Reference Videos -AGV

Customer: : Automotive Industry

Part Handled: Pallet

Application: Production Area
Logistics

Challenges: Handling of heavy weight pallet, Manual Dependency

Solution: Conveyor mounted AGV implementation helped automating complete material flow including load-unload.

Benefit:

1. Loading unloading of heavy wt pallet got automated
2. Overall productivity improvement due to just in time material delivery.

Conveyor Mounted AGV
