Wipro Pari Private Limited (Formerly known as Precision Automation and Robotics India Limited ("Wipro PARI", the Company)

Corporate Social Responsibility (CSR) Policy

A. Wipro PARI Charter on Corporate Social Responsibility

At Wipro PARI, it is our conviction that the engagement with social issues must be deep, meaningful and formed on the bedrock of long-term commitment; for that is the only way by which real change can happen on the ground. This is also reflective of the fact that such an approach serves both, enlightened business interest and social good. We run our social programs on a strong foundation of ethical principles, good governance and sound management. This includes, inter-alia, holding ourselves up to public scrutiny through a framework of transparent, rigorous reporting.

We are committed to further capacity building, empowerment of communities, inclusive socio-economic growth, environment protection, promotion of green and energy efficient technologies, development of backward regions and upliftment of the marginalized and underprivileged sections of the society.

Wipro PARI is committed to operate and grow its business in a socially responsible way. Our vision is to grow our business whilst reducing the environmental impact of our operations and increasing our positive social impact.

B. Wipro PARI CSR Policy

The central tenets of our approach have been the emphasis on strong, meaningful work on systemic social issues. Our CSR policy articulated below therefore reflects these principles and strategies that have informed our long history of corporate citizenship and social responsibility over the years.

All CSR projects which we are going to will be in line with the CSR policy and also as per those activities enlisted in Schedule VII of the Companies Act, 2013.

Our approach to social responsibility and sustainability rests on three important pillars:

i. **The Strategic**: We choose domains and issues to engage with that are force multipliers for social change and sustainable development.

ii. **The Systemic**: We choose to engage on systemic issues that require deep, meaningful and challenging work. The objective is to affect systemic change at ground level over a period of time.

iii. **The Deliberative**: Our emphasis on depth and on long term commitment implies a deliberative approach that precludes spreading ourselves thin. By implication, this also means that we are wary of expanding and growing our social programmes as ends in themselves. We will continue to adhere to this approach going forward.

Along with approval of the annual plan, the CSR committee to review the progress of all key programs vis-à-vis its broad objectives for the previous year including effective utilization of the funds and a formal assessment of outcomes and impacts as considered relevant by the Board and the Committee.

**Impact Assessment:**

The Company shall undertake impact assessment of the CSR activities undertaken by the Company through an independent agency:

i. If the average CSR obligation of the Company, in the 3 immediately preceding financial years is Rs. 10 crores or more.
ii. The activity or the CSR project has an outlay of Rs 1 crore or more;
iii. Considering company’s performance and its net profit crosses the threshold, Committee shall appoint independent agency to complete impact assessment.

In this regard, our approach to the evaluation of program outcomes and impacts is guided by the recognition of the complex reality underlying social change and developmental progress, especially in a diverse country like India. We think it is critical to recognize widely varying contextual nuances, the intricate web of interconnections within and across domains and the often uncertain trajectory of long term outcomes that lead to meaningful impacts. Illustratively, meaningful outcomes in school education are not only a result of the quality of teaching -learning that happens within the boundaries of a school but are closely correlated with the issues of gender, community resilience, livelihoods, energy access, clean water and sanitation. Incorporating such an approach while simultaneously avoiding the trap of standardized templates with a fixation on quantified outcomes is what characterizes our policy on impact assessment. All decisions on outcome/impact evaluation are taken by the CSR Committee and presented to the Board as part of the annual planning and review cycle.

**E. Domains**

The various areas of CSR activities will primarily include the following:
